Vinyl Cutter

KEY RISKS:

Sharp objects   Injury

PURPOSE:

The vinyl cutter is a 2D plotter/cutter that can cut designs into vinyl sheets which can then be used as labels or signage, or heat-pressed onto garments.

SAFETY:

- The blades of the vinyl cutter are sharp and can be harmful if used incorrectly.
- The rollers on the vinyl cutter have moving parts that can catch loose clothing or hair - dress appropriately and keep clear of the machine when it is working. DO NOT reach over the machine when it is in use.
- Be careful when using the sharp tweezers for weeding.
